DEDICATION TO

Adele Grayboyes

In the near future we will be losing to retirement some excellent educators. It is to these fine people that we dedicate our yearbook. Through long years of diligent effort they have made Marple Newtown great. To them goes our deepest thanks, our warmest appreciation and our fondest hopes for a fulfilling retirement.

Sincerely,
The Students of Marple Newtown High

To The Class of 1985:

There is no doubt but that many of you will leave high school and step into a world where the word "power" will be thrown at you from many directions. If you have not been reading the newspapers or tuning in on the news, the realization that man's desire for power has created the calamities which surround us will come as a shock. The tragedy lies in the fact that we have come to accept the misuse of power as lightly as we expect bulbs to light up at the touch of a switch. Reinhold Niebuhr said, "As individuals men believe that they ought to love and serve each other, and establish justice between each other. As racial, economic and national groups, they take for themselves whatever their power can command." Will you accept such a statement as a truism? Our own Henry Kissinger said, "Power creates its own legitimacy." Gustave Le Bon wrote, "a truly pacifist people would soon disappear from history." Finally, "good old Napolean" said, "Friendship is only a word. I love no one."

I cite such quotations to excite and perhaps to provoke you to the point that you and those that follow you take issue with such statements. Many of you hold positions of power in the political world, in the business world and in the professional world. I urge you to prove those quoted above to be wrong. I believe they are, and I believe you and future generations must show that power used rationally and benevolently can accord all people a happy life. Will you accept the challenge?

Sincerely,

William C. Capriotti

SNAPPER'S LIGHTWEIGHT 19" MAKES LIGHT OF LAWN WORK

The 19" Hi-Vac® proves SNAPPER's built in quality can come in a small package. Light, compact and durable. It's easy-to-start and easy-to-handle.

A short wheel base helps prevent scalping and allows mowing and trimming in tight areas, around shrubs and under trees.

SNAPPER's exclusive patented Hi-Vac cutting system creates a powerful suction that actually sets up grass for a smooth, even cut, while vacuuming your lawn of clippings, leaves and other debris. Options are a Snapperizer for shredding leaves, a Mulcherizer for mulching clippings and a side discharge for use without a bag. For added convenience there's the Extra Bag-N-Blade Kit.

It's no wonder this compact SNAPPER makes such short work of lawn work.

Look for it at your SNAPPER dealer today.

It's a snap with
